

We have an idea of making an aquatic park on a slope.....
an aquatic park filled with hot spring water.....

You may have the Aqua FUN just this summer!

Expectation 1... Easy access from anywhere around the country!

Expectation 2... A hot spring aquatic park with cares of your health!

Expectation 3... New concept of water play areas built on a ski slope!

Expectation 4... Water play areas specialized for children with
an average deep of 0.9m!

The Aqua FUN is operated with
“Yangji Hot Spring Water”!

The “Yangji Hot Spring Water” in Yangji Pine Resort features the content of sodium bicarbonate ($\text{Na}(\text{Ca})\text{-HCO}_3$) that is said to have good therapeutic effect to chronic dermatitis, anaemia, neuralgia, nephritis and even digestive, respiratory troubles and diabetes as well.
